

# ASSIGNMENT

CODE:

```
namespace assignment
{
    3 references
    public partial class Form1 : Form
    {
        1 reference
        public Form1()
        {
            InitializeComponent();
        }

        1 reference
        private void Form1_Load(object sender, EventArgs e)
        {
        }

        1 reference
        private void button1_Click(object sender, EventArgs e)
        {
            MySqlConnection conn = new MySqlConnection("datasource=localhost;port=3306;username=root;password=root" +
                "");
            conn.Open();

            if (conn.State == ConnectionState.Open)
            {
                MessageBox.Show("connected");
            }
            else
            {
                MessageBox.Show("not connected");
            }
            conn.Close();
        }
    }
}
```
